PROFILE

I'm an adaptable and innovative qualified product and industrial designer with over 3-year experience creating cost efficient designs. I have the ability to create very effective creative designs with my expertise including interior design and product design. I am very adaptable as i have immense experience in social media marketing and graphic design. I try to be creative and innovative in my design and technology.

I'm looking to develop my expertise in new concept development, simulation and validation within a forward-thinking company based in Pakistan or any foreign company.
