## Major Course

- Object Oriented Programming (C++/Java/C#/.net technologies)
- Android Development 6.0
- Visual C++
- System Analysis & Design
- IoT, Raspberry pi, Arduino, Node js (basic knowledge)
- Data Structure
- Database Management Systems
- Oracle
- MVC Web Application Development by .Net Technologies

## Work Experience

### Senior SQA Engineer/ TTL (PowerSoft19 Pvt Ltd) March 2016 to till date

- Planning, Writing and Execution of test cases (iOS / Android with BLE based Secure Readers / Web Application)
- Reporting and reproducing bugs (reported from client side as well as from internal testing)
- Reporting issues by using Jira and excel
- Android application security testing (Reverse Engineering / Obfuscation testing / Anti Debugger / APK Tempering)
- Android and iOS Based SDK testing (Security + functional)
- Planning to prevent future issues from client by applying multiple application scenario (for functions and for drawbacks of security implementation)
- Analyzing change and its effects on current previous and future build to prevent any post release issues.
- Focus on Secure and reliable applications according to requirements
- Code Review and provide feedback for a better flow (Android only)
- Basic Knowledge about selenium for automated testing
- Hands on Project Management Skills
- Team Leader, Handled multiple teams on same time to achieve maximum results

## Expertise

- Capable to work under high pressure conditions
- Motivate the team to get best results
- Practical work Experience on ASP.Net, C#, HTML, CSS, JS, jQuery, Android
- Basic Knowledge of Php
- Database development and designing
- Knowledge of Raspberry pi, angular js, node js and IoT
- Capable to enhance quality of application by using multiple testing techniques.

## Final Year Project

### Online Career Counseling System (Asp.Net)

- Developed by using Asp.Net, MVC, ADO.Net, C#
- Understand the human behavior by Research work
- Design Expert System in Artificial Intelligence
