EDUCATION

BS(CS)

National University of Computer and Emerging Sciences

08/2015 - 05/2019

Lahore

SKILLS

Objective C

Swift

Sqlite

SQL

LEARNING PROJECTS

Meals App (06/2021 - 07/2021)

Built a simple app to show different meals along with their recipes including ingredients and steps to prepare meal. It is cross platform app built in flutter and dart.

Travel Book (11/2021 - 12/2021)

Built a location based app in **Swift** where user can select their visited locations on map provided inside app. User can save that place in local DB using core data. User can navigate to place from current location.

Hotel Management System (08/2017 - 12/2017)

Built a management system for restaurants to help them to serve their customers in a best way by providing them services online from their tables. It's an android project and developed in Android Studio using Java.
